DIFFERENT SIZES

VARIOUS  
SHAPES

FOUR EQUAL  
BEZELS 0.68CM

ULTRA-THIN  
3.5CM THICKNESS

## A VARIETY OF SHAPES AND SIZES

The size that needed to be customized in the past has become a standard here, eliminating the high cost of customization and long waiting. There is no need to waste time and energy to communicate details.

The full range of ultra-full sizes, small and exquisite mini models to majestic giant models are fully covered.

With installation methods such as wall hanging, hoisting, and embedding, you can find the most suitable one regardless of your space size or usage scenario.

Bar/square/regular A variety of shapes are available, and special shapes can be spliced to create a unique creative and personalized display layout.

## MINIMALIST DESIGN

### SUBVERTING TRADITIONAL VISUAL PERCEPTION

 <p><b>Very narrow bezel</b> Only 0.68cm width</p>	 <p><b>Super multi-size</b> Only 3.5cm thick</p>	 <p><b>Fit the wall seamless</b> Flat back, free design</p>
---	---	---

## EXTREMELY SLIM

The perfect combination of technology and art, make it seamless with the wall, perfect integration into the space. The flat back plate without convex hull, getting rid of the constraints of traditional display screen thickness and raised provides higher scalability for the design.

## THE COLOR OF THE FUSELAGE FRAME VARIES

(standard colors: black, white, silver)

## ULTRA HIGH SCREEN RATIO

4K high definition resolution, presenting authentic style, stunning at a glance. Equipped with 178 ° wide-angle vision, bid farewell to angle restrictions, and every angle is clear. Minimal borderless four-sided equilateral design, the bezel is only 0.68mm, the screen ratio is as high as 97.14%, and it can be installed horizontally and vertically, eliminating visual constraints and enjoying free use.

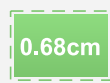

Note: 97.14% screen ratio is the measured data of 100-inch Light Box Screen, and different sizes of product have different data.

IN BRIGHT LIGHT**

High brightness features bring excellent image display effects, even if the surrounding ambient light is strong, the picture is still clear, bright-colored, and vivid, full of details.

Whether it is a commercial display or a professional work scene, the light box screen can attract more customers or accurately convey the content with its excellent brightness and display effect.

## EXCLUSIVE PATENT

A full range of products are independently developed, produced and assembled, and accessories and assembly costs are more advantageous. A team of senior structural and electronic designers ensures that the products are durable, with excellent performance and anti-interference ability, and have 24hours/7days continuous working performance.

## DEEP MARKET INSPECTION STRONG PRODUCT STABILITY

Raw materials are strictly screened, the production process is finely polished, comprehensive inspection before leaving the factory, and the after-sales failure rate is less than one thousandth. Factory spot inventory is supplied, orders are quickly responded, and the construction period is tight and delivered on time.
